

**MEGA UNION TECHNOLOGY INC.**

# **Investor Conference**

**Presented by : Chief Financial Officer, Chin Pao-Hua**  
**Date : June 12, 2025**

# 01 INTRODUCTION

# Company Overview

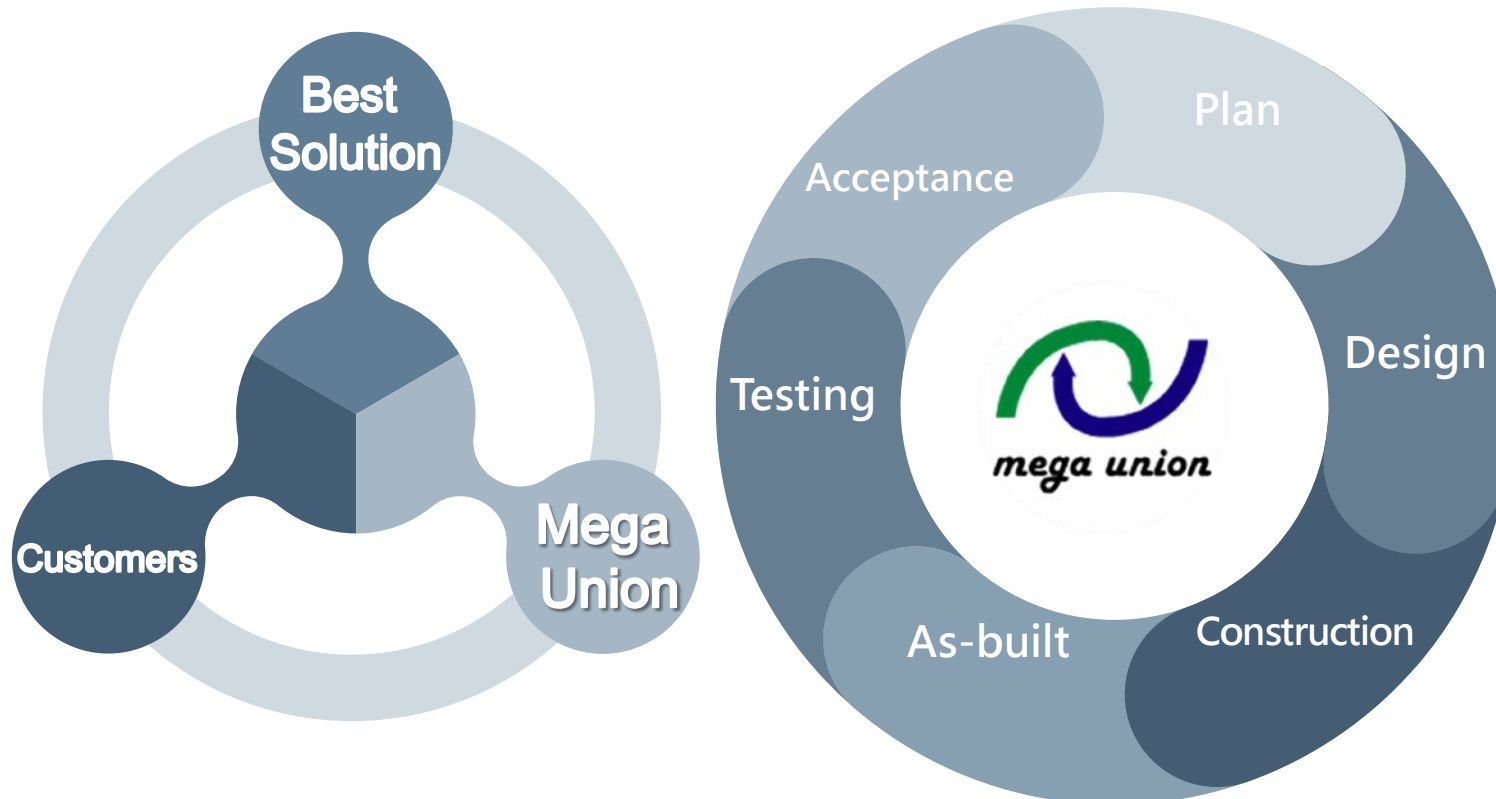

Founded in	December 29, 2004
Chairman and CEO	Lin Kuo Ching
GM	Tsao, I-Chang
Capital	763,083,120
Headquarters	No. 439-3, Taoying Rd., Taoyuan Dist., Taoyuan City
Main business	Engineering and Operation of Ultra-Pure Water and Wastewater Reclamation Systems
Number of Group Employees	1,140 (as of April 30,2025)
Listing Date	May 28,2025

# Industrial Water System Engineering

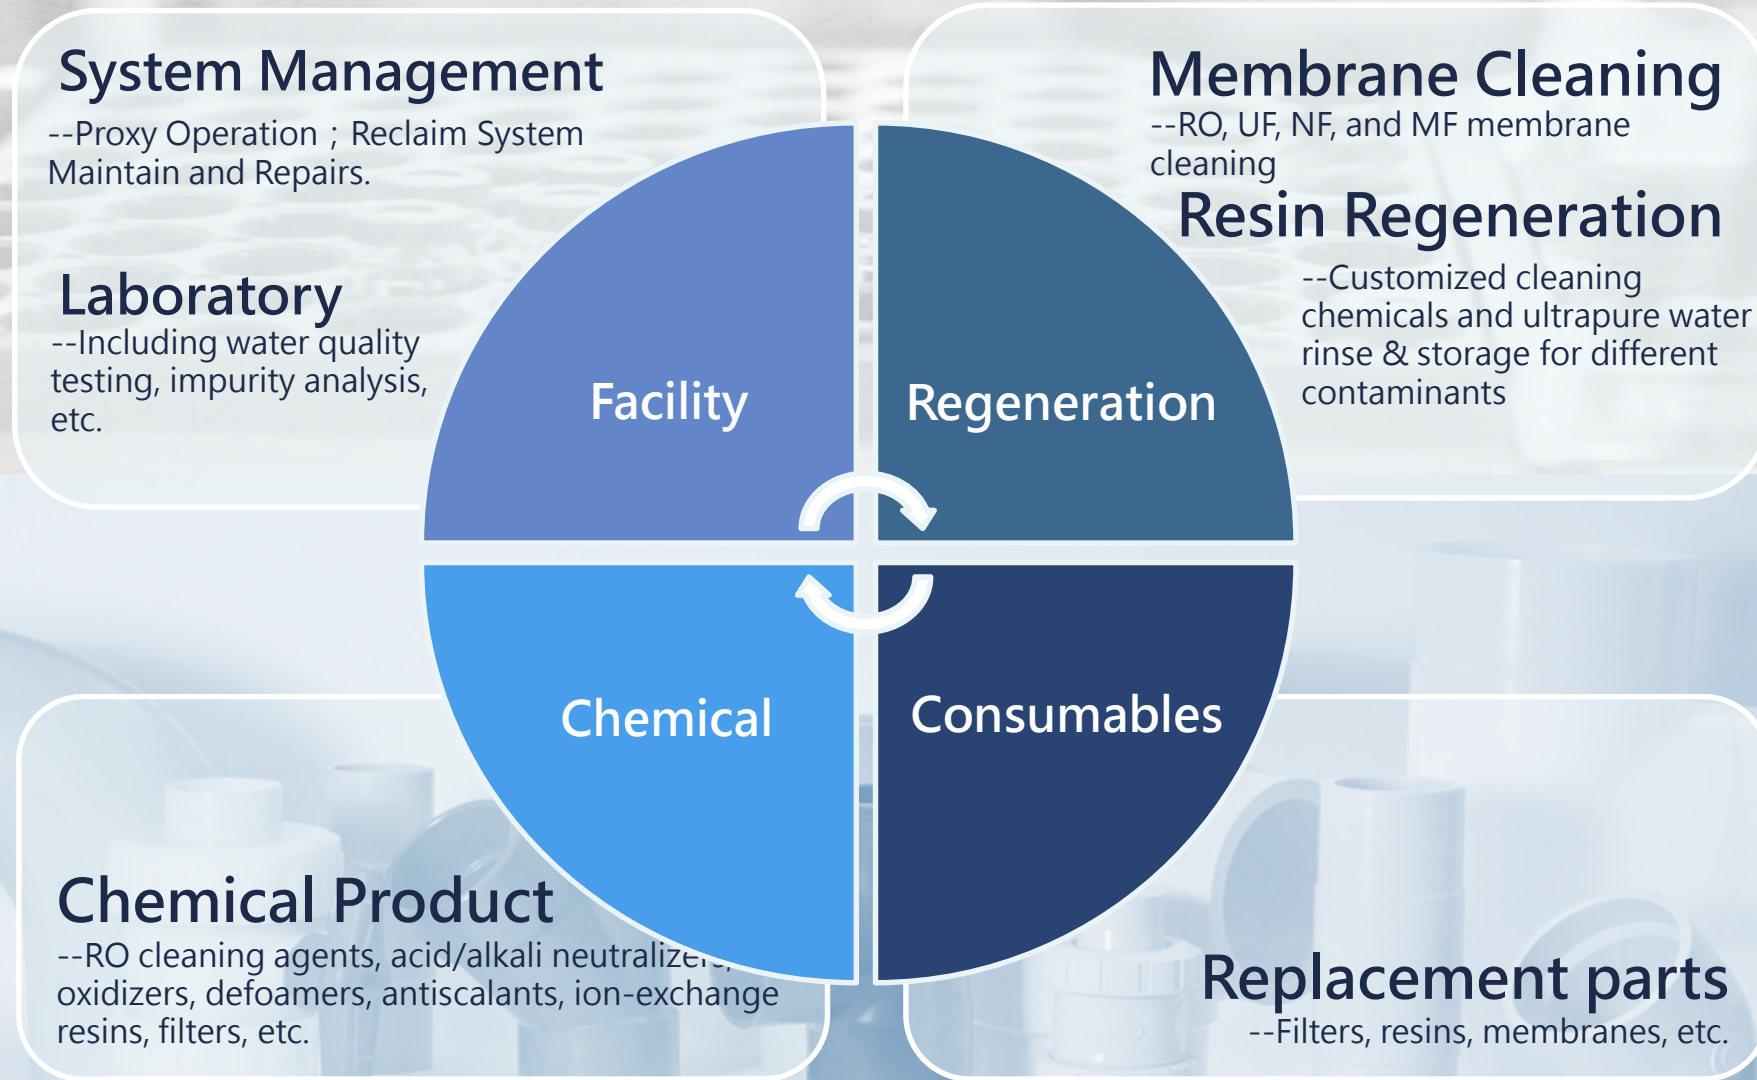

Best Solution

Turnkey Engineering for Pure Water /  
Wastewater Treatment / Reclamation

- Ultra-Pure Water System Engineering
- Wastewater Reclamation Systems
  - Acid-Alkali Wastewater Reuse
  - Organic Wastewater Reuse
  - Metal Ion Wastewater Reuse
  - Fluoride Wastewater Reuse
- Waste Liquid Recovery Systems
- Wastewater Treatment Systems

# Water System Services and Products

# 02 AI Cooling [Coolant Recycling and Reuse System]

# Data Center-Cold Plate Liquid Cooling System

## ■ Data Center Cold Plate Liquid Cooling Architecture

### Secondary-Side Equipment of Liquid Cooling System

# MEGAUNION Offers Reliable Liquid Cooling Solutions for Data Centers

## ■ Coolant Reliability Solutions

Solution	System	Description
Filtration System Solution	Offline Filtration Solution	Filtration performed using offline equipment. <ul style="list-style-type: none"><li>• Filters newly added coolant and used coolant.</li><li>• Filtration level defined based on total suspended solids (TSS) and total dissolved solids (TDS) and particle size.</li></ul>
	Online Filtration Solution	Continuous filtration through online equipment.
Monitoring System Solution	Real-Time Online Monitoring Solution	Modular monitoring system for real-time monitoring of coolant properties.
Filtration + Monitoring Solution	Real-Time Online Filtration & Monitoring Integrated Solution	Modular integrated filtration and monitoring system that performs: <ul style="list-style-type: none"><li>• Real-time coolant filtration</li><li>• Real-time monitoring of coolant properties</li></ul>
